

Submitter: Bonny Chipman

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2749

I am a resident of St Johns and I am in favor of this measure. It is absolutely essential that it passes for the safety of all residents of this neighborhood.

After an earthquake the north peninsula will be CUT OFF from the rest of Portland because the bridges over the Cut will collapse. We need a way out. We need a way for supplies and medical care to reach us. This will save lives, if you pass it.
