Committee: Joint Committee On Ways and Means Subcommittee On
Natural Resources

Measure, Appointment or SB5520
Topic:

Dear committee,

Thank you for allowing me to submit a testimony on this important issue. Recent years of wildfires in Oregon, as well as poor air quality days due to smoke, stagnant air and inversions make it very clear that we need to limit emissions aggressively. Any strengthening of DEQ rules for emissions is greatly needed and beneficial for the health and wellbeing of all Oregonians. Please use your vote to advance this bill and pass strong protective environmental legislation.

Thank you from a concerned resident of Lane County.

Sincerely,

Robert Marquis
