

Submitter:

Arlet Gremel

On Behalf Of:

Committee:

Joint Committee On Transportation

Measure, Appointment or Topic:

HB2749

Please pass this bill in support of the St Johns community! In the case of an earthquake, we will be cut off from the rest of Portland if a new bridge is not built over the cut. Families will be separated and it will take many months to get medical help and food resupply. This is crucial, please pass this bill. My husband and I live in St Johns and would really appreciate it.
