

Submitter: Lindsey McGuire

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2749

To Whom It May Concern -

I have lived in St. John's Portland for 7 years. I am educated on the risks of living here, should a large earthquake hit our city. I feel helpless, however, at what I can do to prepare until I know there is a way to exit the peninsula where St. John's is located. Please allocate funds to ensure we have the infrastructure to escape. Without it, we may be stuck here for months, may become separated from family, and may be susceptible to toxins in the air following the earthquake. I have my GoBag packed, now give me some place to go!
