

Needed NOW!! For An Emergency Route. Testimony [your opinion] on HB 2749!!

From Rep. Nelson's office: "we need to demonstrate how much support there is for this and can point to the number of written testimony to do that."

It's SIMPLE — hit Submit Testimony at <https://tinyurl.com/HB2749>

Don't delay! Preferably before Hearing, Monday, April 14 at 5:00 PM or, 48 hours after.

This is our CHANCE to provide \$5 million for the design of a new bridge over the RR cut on Columbia! The community needs YOU [and friends/kin] to speak up!

After the earthquake the north peninsula will be CUT OFF from the rest of Portland because the bridges over the Cut will collapse!

20,00 at risk!

Talking points!

Testimony is MUCH MORE impressive if not "cookie cutter". You can totally write your own, or, start out with at least one personal statement and then add in one or more of the key points listed here.

WE ARE NOT A SACRIFICE ZONE!
We need this bill to pass out of Committee!

- ♦ Families will be separated
- ♦ No emergency vehicles in/out
- ♦ No medical help
- ♦ No food resupply
- ♦ No repair trucks
- ♦ In the worst case scenario, if a toxic cloud comes from the CEI Hub - WE WILL BE TRAPPED!

This is also an issue of environmental equity - we are a lower-income, diverse community. We already suffer from low air quality and threats from the CEI Hub.

THIS EMERGENCY COULD LAST MONTHS!

Ask your friends and family who do not live here to submit testimony, too! They can say they are worried for you!! Send them this flyer.
