

Submitter: Allison Schreck

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2749

As a resident of St Johns it is super important to me that we don't get trapped in case of an earthquake. We have a baby on the way, and my husband works off the peninsula. We really need access to medical vehicles and hospitals, as well as the ability get out if need be or have others come to us for assistance.

Please support emergency route access for St Johns - this is a really high priority!

Thank you so much!
