

Submitter:

Colleen Wright

On Behalf Of:

Committee:

Joint Committee On Transportation

Measure, Appointment or Topic:

HB2749

As a resident of St John's, I am asking you to pass this bill to protect the safety of myself, my husband, and our community. I work from home and my husband works in the neighborhood, so if a natural disaster were to happen the chances of us being stranded in St John's are extremely high. It is imperative that we have an escape route to seek safety in the event of a major disaster. Please pass this bill to fund a new bridge over the cut to provide us with a secure escape route. Thank you.
