Measure, Appointment or SB5520  
Topic:

I support SB 5520. Worsening climate impacts across the state have made clear the need to reduce emissions and protect Oregon communities. At the same time, the federal government is advancing rollbacks to climate and environmental justice protections. With the cascade of federal rollbacks underway, DEQ's work to restore, maintain and enhance the quality of Oregon's air, land and water has never been more critical. Thank you.
