

Submitter: Ruppert Reinstadler

On Behalf Of:

Committee: Senate Committee On Early Childhood and
Behavioral Health

Measure, Appointment or Topic: HB2901

The fact that we're even talking about this is ridiculous. No parent should ever be invited to leave their infant child. We would be enabling a crime. This, in my mind, is irresponsible and immoral to vote for such a thing and unsympathetic to a child. I oppose this bill. Let's find a way for a despondent mother to get help and maybe give up her child for adoption but through the proper channels.
