

Submitter: Lisa Butler  
On Behalf Of: Myself  
Committee: Senate Committee On Early Childhood and Behavioral Health  
Measure, Appointment or Topic: HB2901  
To Whom it May Concern,

I am an adult adoptee and former Oregon resident. It is incredibly harmful to allow human adults who have created a human child to just dump that child off anonymously. This human child, as much as any human child, deserves to know where they come from. They deserve to know their ancestry, biology and history. All too often in adoption, the child pays the price.
