HB2749

Hello, my name is Babs Vanelli, 76 year old life long Portlander. I live in NE Portland and

Lew Frederick is my State Senator. Thank you to Rep. Travis Nelson and Sen. Frederick

for bringing forth this Bill.

I am well aware and extremely concerned about the dangers posed by the CEI Hub/Zenith.

I do not live far from St.Johns which is literally a heartbeat away from the Hub/Zenith. It is truly heartbreaking to imagine the devastation of an earthquake or other disaster on our City.

I have previously submitted written testimony on 4 other Bills this session regarding the Hub/Zenith. HB 2749 proposes a specific plan to protect my neighbors who are in imminent danger.

Senator Meek and Representative Gomberg, I implore you to move HB 2749 forward.

Thank you.
