I'm writing in support of HB-2978-A

I live in Three Rivers, Oregon and would like to express my support for more wildlife crossings in our state. Our main highway is 97, and during the Spring, Summer and early Fall months, the highway is riddled with dead deer. It is both stressful and distressing to see so many deer killed along this highway, and I have on more than one occasion had near misses with my vehicle. I know other states have made more progress on implementing wildlife crossings, and I would like to see Oregon do the same. With the abundance of wildlife moving in this state, it is necessary for both the safety of our drivers and our wildlife.
