Committee:

House Committee On Education

Measure, Appointment or Topic:

SB867

There is an increasing need to overhaul the administration of the department of Education. As the "WOKE" and "DEI" philosophies are finally being irreversibly rejected by the Voters, DOE seems to continue to hoist indoctrination of youth in school education programs. The parents are capable of deciding where they send their kids to school and for those parents who cannot afford private schooling for their children, public schools should not be to indoctrinating children in regard to sexual acts, political symbols such as (Pride and Black Lives Matter Flags in the classrooms) and religion.
