

Submitter: Pamela Fitzpatrick

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2945

I strongly urge you to support HB-2945.

I note that 48 of our 50 states are already using electric buses. They are not just being operated in warm, sunny states.

Electric buses produce a much lower level of greenhouse gas pollution than the currently used diesel or propane powered buses, even when you add in the pollution caused by the production of the electricity fueling these buses. In addition electric buses are significantly less expensive to operate.

A wise addition to our efforts to decrease our greenhouse gas pollution and a wise economic choice.

Thank you! Pam Fitzpatrick
