

Submitter: Elaine Lavington

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure, Appointment or Topic: SB64

I OPPOSE [SB 64].

[SB64] continues to expand the Supplemental Nutrition Assistance Program, "SNAP" program [A.K.A the "Food Stamp Program"], using devious and misleading administrative actions to serve as a legitimate "misrepresentation" of financial income to become eligible to receive "Food Stamps."

[SB 64] serves to dramatically increase the "administrative costs" to manage the ongoing explosion of growth this sector of the "welfare state." This intentional aversion to educate the public to the total cost of the "Food Stamp (SNAP) program" is yet another legitimate reason to abandon this piece of legislative dung.

[SB 64] is not solely for Citizens of the U.S.A. but also serves to facilitate and enable Illegal Aliens from detection by Federal Authorities. Personally, I want "No-one" to suffer from hunger but the burgeoning costs of government especially, the continued unabated expansion of the "Welfare State" must be reeled in to pay down our respective, National and State debts.

Please vote "No" on SB64.
