On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3045

I am opposed to HB3045 as it is written. All healthcare professionals should be treated equally, and under this bill pharmacists face harsher standards than doctors and nurses. They are presumed guilty and have to face testing at their expense, have no real appeal process for false or unfounded accusations. The bill also creates a financial burden and could force some to leave their jobs. Please vote NO on HB3045 or revise to be in-line with doctors and nurses.
