

Submitter: Joel Owens

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or Topic: SB5505

I'm a recreational fisherman and lifelong Oregonian and I support SB 5505. Hatchery programs are wildly beneficial for the environment by enhancing the rivers and entire ecosystems in our state. The economic impact a single hatchery can have through recreational fishing is also a huge benefit to the many small communities in the watershed of a single hatchery. Thank you
