

Submitter: Nancy Holmes
On Behalf Of: HB 2684
Committee: Senate Committee On Education
Measure, Appointment or Topic: HB2684

My name is Nancy Holmes, I am a resident of Seaside Oregon and I am writing in strong support of House Bill 2684 because it is essential for protecting Oregon students and school staff from unnecessary pesticide exposure while promoting safer pest management practices in schools. This bill focuses on good and essential safety protection of our school children their teachers and their staff for a healthy environment.

Don't let our children down!! Protect their young and vulnerable bodies from pesticides. Need pesticides be used at our schools at all? Indeed the use of pesticides anywhere, at any time is questionable!

Pass this bill 2684, it is just smart to do so.

Thank you,
Nancy Holmes
