

Submitter: Eve Z. Marx

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: SB551

In consideration of the environment and growing, troubling use of plastics, I support this bill although I do understand what a strain it will present to both restauranteurs and consumers. The negative aspects, not in the least trash, outweigh the positives of continuing to provide single-use checkout bags. So, thank you for supporting the passing of this bill. Eve M., Seaside OR
