

Submitter: Dorothy Atwood

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2945

I strongly support HB 2945 that establishing state policy on the purchase of zero-emission school buses. The move will help

- save school districts money in the long term
- protect students' health from diesel exhaust
- provide an opportunity for resilience by having a mobile source of energy during emergencies and electrical outages.
- secure long-term stable funding for clean transportation.

Thank you for your consideration and support of this important measure.
