Committee: Senate Committee On Early Childhood and Behavioral Health

Measure, Appointment or Topic: HB2814

" The department, upon good cause shown, may waive one or more of the certification requirements in this chapter or adopted by the council by rule if the department is satisfied that appropriate conditions or safeguards exist to protect the welfare of the children and the consumer interests of the parents of the children."

I opposed this measure as it does describe what protections will be lost by removing certifications. If this were to happen to pediatricians - no schooling required for children - imagine the disasters. What exactly are those requirements not necessary and how do you determine what is passed over because of the rush?
