Resources, and Water

Measure, Appointment or SB733
Topic:

Please vote in favor of SB 733 - Small and large livestock farms contribute to food and fiber in Oregon. A dog that kills or maims livestock is a significant financial and emotional hit to our Oregon farmers. We work to keep our animals behind fences and safe on our properties. A loose dog causes devastation to livestock that are unable to get away and fend for themselves. Once a dog has attacked or killed this will happen again and again until the dog is removed. Poor dog ownership is not an excuse for unacceptable dog behavior, especially when it ends in death or injury for other animals.

This bill is paramount in providing prevention of future attacks and recourse for the livestock owners now! Farms are the backbone of Oregon. Keep them safe!
