

Submitter: David Davis
On Behalf Of: Support of fish hatcheries
Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction
Measure, Appointment or Topic: SB5505

Having abundant fish in our streams and ocean are of great economic value to the Oregon coast. Not just commercial but the tourist that they bring here are invaluable some the loss of our forest industry. Currently Hatcheries are the only real alternative. Please support expanding our hatchery programs for the economic benefit of the rural costal areas.

Thanks for your consideration.
