On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure, Appointment or Topic: HB5006

Please support HB3170 ~ Community Resilience Hubs - Oregonians need a second round of the CRH grant program, as 2024 was the hottest year recorded on Earth, and we can feel it with threats of wildfire, droughts and severe storms. Communities already struggling are now in increasing danger. We can't count on Federal funding; we need our Oregon Legislature to back us up as we struggle to thrive in adverse times. We deserve clean air, water and soil so that we can live and provide for our children.

Please also support SB1187 to hold corporations accountable to maintain our healthy environment, not only for our own citizens but to support a strong tourism base for our State of Oregon; we must sustain the natural beauty that we have been blessed with!
