Measure, Appointment or Topic: HB3489  
I oppose this bill

My husband and I had decided to remove ALL of the trees in our 2 acres to maintain a fire-defensible area. Much to our chagrin to do so. Now it looks like we'll be paying MORE in taxes to protect individuals and their homes from fires.

This is the kind of logic only the government could come up with. And if you take a critical thinking class you would understand that 1. the wildfire map has already impacted insurance costs on HOMES and now 2. YOU want to destroy our ability to defend our homes. Are you daft?!

You are also taxing FEDERAL lands which have already been determined the requirement of thinning (which is the most obvious thing to do even a 3 year old can figure this out). This is unconstitutional and again a 3 year old can see that you want the FEDS to increase our federal taxes to hahahaha see we got Trump hahaha, but it is ... again... unconstitutional.
