I am in support of SB 5505 as we are in dire need of affordable housing everywhere. There are many people I have seen sit on a waitlist for up to 7 years waiting for a decent and affordable place to live for them and their loved ones. Everyone deserves a to have a clean and descent place to call their home. There are many people that are also at a pint where they may not qualify for Low Income programs any longer but continue to stay because they cannot afford to get into their own homes. If there were more affordable homes built it would make a pathway for ne homeowners in turn leave the affordable housing for those in need.

We definitely need more permanent supportive housing for those less fortunate. There are many people with disabilities needing full time support; however, there is not enough placements in decent and affordable care homes for our most vulnerable individuals, please help us. I see the need every day of more affordable homes.
