I lived I. Oregon 40+ years. Left there for NYS last April. You won't get squat out of trump. Democracy is dead, our Congress is a bunch of yes men. Trump will dismiss Congress if it crosses him. What needs to happen is for Great Britain to take out trump. MI6 is using to the job, and it solves the problem for all of Europe. Oregon may find itself best served leaving the Union. Perhaps Washington & California would go with Oregon. I miss Oregon deeply! She Flies on Her Own Wings.
