I oppose this bill.

Any credits for those who use "less" energy sources, gas, etc., will not be given credits. Keeping up with Pacific Power's continual taxes (yes, it's in the bill), along with increased costs on our invoices, increasing the cap and trade taxes which annually increase, prove that the state of Oregon is punishing anyone who cannot afford to pay for, or those who are in vulnerable classes, because they cannot possibly pay for the "green new deal."

Make no doubt, this is the new "Sin Tax."
