

Submitter:	Elizabeth Blass
On Behalf Of:	OregonFlora
Committee:	Joint Committee On Ways and Means
Measure, Appointment or Topic:	HB5006

I support bill number (HB3173) because the well-developed OregonFlora project is important in keeping plant diversity data up-to-date. The OregonFlora project has impact by helping agencies and businesses meet their mission and leverages 30 years of data development by sharing plant knowledge with Oregonians across the state.
