

Submitter: Laura Feldman
On Behalf Of: Community Member
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: HB2143

Dear Committee Members,

I'm urging to you vote in favor of the 5 Point Needle Protocol.

At this uncertain time in our country where the socio-economic landscape is shifting drastically, access to treatment like the 5NP will help all of us deal with the stress and strain of mental and physical survival.

I know from experience over many years how helpful acupuncture has been for my health and well-being.

Please make this treatment easily available to all of us.

Thank you!

Laura Feldman
