SB1198

As a citizen of the United States it is my right to vote and participate in the laws and regulations imposed. My lineage goes back to the Revolutionary War my family for generations has fought for our freedom, for the right and duty for all of us to not live under dictated decisions. An elected official is to perform their duties on behalf of the people or be voted out, an appointed official doesn't fall under that umbrella and doesn't answer to the people. They can not be "fired" by the people they represent. Don't take away our right to decide.
