

Submitter:

Stafford Winters

On Behalf Of:

Committee:

Senate Committee On Education

Measure, Appointment or Topic:

HB3025

In addition to the fact that this measure discriminates against those who wish to pursue religious education, I am generally opposed to using taxes to fund coursework which is not foundational to a degree which results in employment valuable to this state. Those who wish to receive education can do so at a little or no cost today by accessing material on the internet. Please vote against this bill.
