SB1166

Dear Chair Jama, Vice-Chair Bonham, and members of the committee,

I've been driving for almost 3 years now, and I'm not getting paid fairly for paying for all the gas, maintenance, tires, and wear and tear on my car. They are charging our customers \$40-\$60 to go to the airport and then only want to pay drivers less than 50%. That's why we need better pay, because right now we're not making minimum wage after our expenses. We also need protections from deactivation's because customers can just submit one bad complaint that's not true and we can lose our job. Please pass Senate Bill 1166.

Sincerely,

Luckson Mesidor
