

Submitter: Ilya Gatitsky

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1166

Dear Chair Jama, Vice-Chair Bonham, and members of the committee,

I've been driving for almost 4 years and I used to own a car that didn't cost me as much as the one I have now. Funny thing is, I was making more money then and it was also busier.

But things have gotten worse than they ever were. I get paid less and have to work way more hours. They keep telling us to buy cars that are more expensive, in order to possibly be able to make more money. But the reality is it shouldn't be like that. And that's why I need to be paid better for doing this job that I love.

I hope you will pass Senate Bill 1166 and support fair pay for drivers.

Sincerely,

Ilya Gatitsky  
Uber driver
