

Submitter: Jake Compton

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1166

Chair Jama, Vice-Chair Bonham, and members of the committee,

Drivers are workers like any other, who hold up this economy and are not in a position to defend their economic standing from the parasitic monopolies that are keeping pay low and not providing protection that drivers need to maintain a stable job. Drivers need their pay and benefits to maintain a sustainable living standard, and safety protections to work in a healthy environment. Please pass Senate Bill 1166.

Thank you,

Jake Compton
