

Submitter:

Stephanie King

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1166

Chair Jama, Vice-Chair Bonham, and members of the committee,

I drive for Uber and Lyft. Oh my gosh! These companies have both almost completely done away with bonuses which, for me, amounted to an average of a \$1,200 per month pay cut. It's a HUGE amount of money, and now I'm back to barely being able to make ends meet in a job where I've financed an EXPENSIVE car that has expensive insurance.

All of the financial outlay is on my side, as is all of the risk. If they randomly decide to shut me down, I'll have to file bankruptcy to get out from under it all.

Lyft taking 30% after their expenses and then acting like they're being heroes is laughable. Uber doesn't even try to dress it up.

They have both FLOODED the area with drivers, so unless you are driving from midnight to 3am, you don't even see any surges.

Now I'm going to have to take on even more debt to go get some kind of medical certification to go back to work in a real job again when I should be able to make it on rideshare. It's so sad.

Please vote yes on Senate Bill 1166.

Thank you for your time,

Stephanie King
Uber, Lyft driver
