

Submitter: Erik Olson
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB1166

Chair Jama, Vice-Chair Bonham, and members of the committee,

I've been driving for Lyft and Uber in the Portland area full time since 2015. They are constantly reducing our pay, and it no longer reflects what the customer is paying. It's ridiculous that we make 40-60% less than not only our neighbors in CA and WA but all other Oregon markets as well!!!?? There's no reason drivers in Portland should be making less than what drivers make in Vancouver, Washington. We also need paid sick time. The new CEO of Lyft is happy to short the drivers, as long as his shareholders see a profitable quarter, and this must stop. We rideshare drivers of Oregon demand fair pay, deactivation protections and benefits! Please pass senate bill 1166.

Sincerely,

Erik Olson
Lyft and Uber driver
