

Submitter:	Nan Devlin
On Behalf Of:	Tillamook County food producers
Committee:	Joint Committee On Ways and Means
Measure, Appointment or Topic:	HB5006

Tillamook County is fortunate to have a rich heritage in farming and food production, an industry that locals and visitors depend on year-round. Breakdowns in this system, whether from natural disasters or impacts of climate change, would threaten the well-being of people and livestock. Please support HB 2979 Food Systems Resilience. Thank you.
