

Submitter: Clint Helus

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1166

Chair Jama, Vice-Chair Bonham, and members of the committee,

It has been 3 years since Washington State passed their fair pay and deactivation benefits.

In the Portland area market, we make the least amount in the entire state of Oregon.

I have been shot at for trying to deliver food. I have had passengers lie to Uber about me just to get a free ride, without any investigation. We have had drivers robbed, injured, and killed. Yet you have done nothing to protect us.

Uber and Lyft have refused to reimburse us for passengers vomiting and sh*tting in our personal vehicle.

It is time to pass Senate Bill 1166.
