

Submitter: Sheila Floyd

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1166

Chair Jama, Vice-Chair Bonham, and members of the committee,

When I run the numbers and factor in my car, gas, and insurance, I am only making \$6.00 to \$8.00 per hour. This number doesn't include things like tires, and all the other regular expenses.

Uber forces us to EARN the right to know where we are going with our riders. Uber refuses to tell the drivers how much customers are paying per trip. Lyft does, why can't Uber? All we are asking for is the same contract drivers in Washington currently get.

In this economy, no one should be forced to work for \$6.00 to \$8.00 dollars per hour. That's why we desperately need the Driver's Union. The Driver's Union can and will solve these issues.

I urge you to pass Senate Bill 1166.

Sincerely,

Sheila Floyd  
Uber Driver
