

Submitter: Evan Morey

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1166

Chair Jama, Vice-Chair Bonham, and members of the committee:

I believe that fair pay, deactivation protections and benefits are important because ride share drivers are putting their property and lives on the line to help cities/towns make more money by dropping many many customers off into places for them to spend money.

Recently I was unfairly deactivated from Lyft for “denying a service animal.” I pleaded my case that I didn’t see any animal but they said their decision was final. I made them so much money and they treated me like I don’t matter. I urge you to support SB 1166.

Thank you,

Evan Morey
Uber and Lyft driver
