

Submitter: John Tousseau

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1166

Chair Jama, Vice-Chair Bonham, and members of the committee:

I have witnessed price surges for the same trip depending upon time of day. When I click cancel ride a prompt asks why. One of the responses you can click says "the driver was charging too much for this trip" or something to that effect. This is a gross misrepresentation of Uber pricing. As any rideshare driver will tell you: they do not control the price for a ride, and how pricing is calculated is completely opaque. Please pass Senate Bill 1166 for fair and transparent pay standards in rideshare.

Sincerely,

John Tousseau
