Chair Jama, Vice-Chair Bonham, and members of the committee,

We need to pass Senate Bill 1166. Regarding pay: Simply, the inflation is 250%+ in real life and the pay is the same since 2019. The customers are paying double what they used to pay and Uber & Lyft is collecting it in the name of fees and whatever scam, which leads to less demand on the service.

Regarding the protections in the bill: Once the customer lies about anything, we suffer. Like an email I received from Lyft saying I asked the customer for a cash ride, when it was clear that I waited for the grace period and I canceled. So he decided to take revenge on me by reporting that lie, and I became a subject of deactivation.

Please support this bill for fair pay and driver protections.

Thank you,
