Steve Han

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1166

Chair Jama, Vice-Chair Bonham, and members of the committee:

I just purchased a Tesla Model Y with 7 seats 3 months ago. I paid \$2,000 extra to get the 7-seat Tesla Y. But unfortunately, that is not worth it anymore since Uber took off the eligibility to pick up for Uber XL. That was the only reason why I paid and got the 7-seat Model Y. I feel this is very unfair.

Uber and Lyft incentivize us to purchase expensive vehicles only for them to take them away and limit our earning potential. When I take rides, I need to be paid fairly. And I also need to know that Uber and Lyft don't get to just pull a bait and switch on me.

Our customers want to get an essential service at a fair price. Unfortunately, when most of those customers are ordering those rides, we're not getting paid a fair percentage of what they're paying. And that's why I need fair pay as a driver to be able to earn a fair and living wage.

Thank you,

Steve Han

Lyft and Uber driver
