

Submitter: Diana Richardson

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: SB951

I support SB 951....and so must you.

Senate Bill 951 is the least you can do to protect Oregonians from the continued corporate influence over medical decisions which must be between patient and doctor.

Whether or not I or my husband get to receive treatment is even influenced by this immoral system which places corporate profits above the health and well-being of citizens.

I have been told I can expect to wait 6 months to a year to see a neurologist in Portland.

I may well be dead by then.

This is all attributable to the sickness system we have. It is not a wellness or health care system.

I repeat: SB 951 is the very least your committee can do to serve Oregonians.
