

Submitter: Ritch Hanneman
On Behalf Of: Is this class warfare
Committee: Senate Committee On Education
Measure, Appointment or Topic: HB2586

It seems that this is a segregating bill designed to promote class warfare. And increase racism by pitting one group against another. Since the rush of illegals into the United States .

Which is an example of Cloward -Piven doctrine. This plays right into that doctrine. It makes the environment of learning a hot bed of controversy . .

And to make this an emergency bill is another insult . From the bill for a state Dog as an emergency to this is just egregious. Egregious is the only way to describe most of the bills.

This session
