

Submitter:	Rich Rohde
On Behalf Of:	Southern Oregon Housing For All
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1166

"Dear Chair Jama, Vice-Chair Bonham, and members of the Senate Rules committee,

As a over forty year resident in southern Oregon I strong urge you to support and pass SB 1166 which will support basic fairness for rideshare dirvers.

We strongly support living wages for all workers as well as basic access to health care and worker rights. Many years ago I was part of the successful campaign in Ashland to adopt a living wage ordinance. We understood so clearly that minimum wage will not support workers or families. All workers should have these basic rights and a living wage.

We in SOHFA recognize the right to housing for all. The right to housing is related to having a living wage and work stability. This is why we are supporting SB 1166. Please vote to move this bill to passage.
