

Submitter: Karen Leibowitz

On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure, Appointment or Topic: HB5006

I write in support of HB2979, the Food Systems Resilience bill.

As we all saw during the pandemic, we need to shore up our food supply in case of emergencies. We can save money and expect a better outcome if we invest in disaster resilience, rather than try to pay for disaster recovery after livestock die and topsoil is washed away.

I urge you to vote for HB2979. Thank you.

(for some reason not HB2979 was not available in the dropdown menu)
