I oppose this bill

good grief.

1. I want to see off parts (other than mercury, because everyone knows mercury has it's toxic) of my car - illegal
2. I bake cakes/muffins/bread, or make spaghetti, chili, or I knit, crochet or make quilts and take them either door to door, or a farmers market, or at my local mom & pops store ..
3. I report that Suzy Q's goods are awesome, but mine are organic. *disparagement*
4. I can't have a "Tupperware" party at someone elses home and not report that said owner is receiving the 'bonus' items?
5. I want Girl Scout cookies. You deprive me of my God-given right to have Girl Scout cookies.

This is a BAD bill as written.
