

Submitter: cindy mahoney  
On Behalf Of: victims  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: SB1122

I oppose this measure strongly.

<https://oregoncourtrecords.us/criminal-court-records/types/sex-offenses/>

This measure is 1. redundant but 2. adds a layered nuance of a statistical probability of reoffending.

"In Oregon, studies show that 45% of all newly released offenders are re-convicted within three years." THERE'S your statistical probability based on all data generated.

This should say it all.
